

MOTION BY SUPERVISOR GLORIA MOLINA

September 13, 2005

RELATED TO ITEM #23

The Board of Supervisors is faced with a Department of Health Services budget crisis in 2007 that requires our full attention as well as the strategic investment of limited public resources. The physical conditions of many of our health care facilities require additional repairs and renovations to ensure that the people of Los Angeles County who receive health care services are receiving them in a fully operational, high quality facility. Improvements to our health care facilities must be completed to ensure that they do not fall into disrepair and further threaten our fragile health care system.

I, THEREFORE MOVE, THAT the Board of Supervisors direct the Chief Administrative Office and Department of Health Services (DHS) to prepare a report to the Board with specific recommendations at the September 20, 2005 Board meeting detailing and prioritizing all DHS facilities that require facilities and/or capital improvement projects, projected schedules for completion, and any budget estimate projections currently available.
